Paslanmaz Çelik Korkuluk Sistemleri

Argesan Kalıp San. Tic. Ltd. Şti. 1990 yılında plastik, alüminyum enjeksiyon ve sac metal kalıp üretimlerini gerçekleştirmek üzere Ankara'da kurulmuştur. 2000 yılında piyasaya yapmış olduğu kalıp üretimini durdurup, 1998 yılında başlamış olduğu Paslanmaz Çelik Merdiven Korkuluk Sistemleri Bağlantı Elemanları üretimine geçmiştir. Halen kendi kalıplarıyla ürettiği 1500 den fazla ürün çeşidiyle konusunda öncü olan kuruluşumuz, kaliteli üretim zamanında teslim ve kesintisiz hizmet anlayışı ile yurt içi ve yurt dışı pazarlarda güçlü bir konum elde etmiştir.

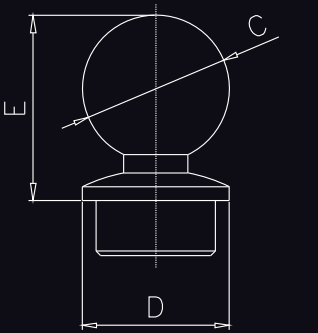

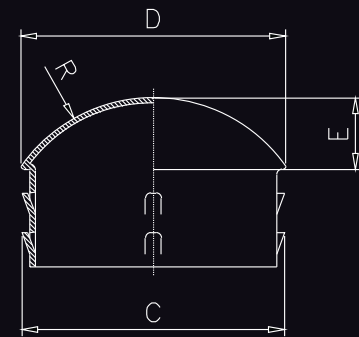

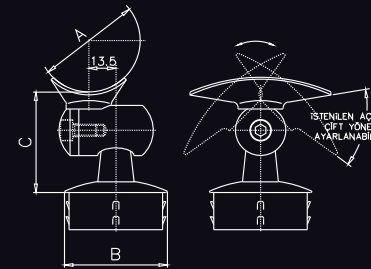

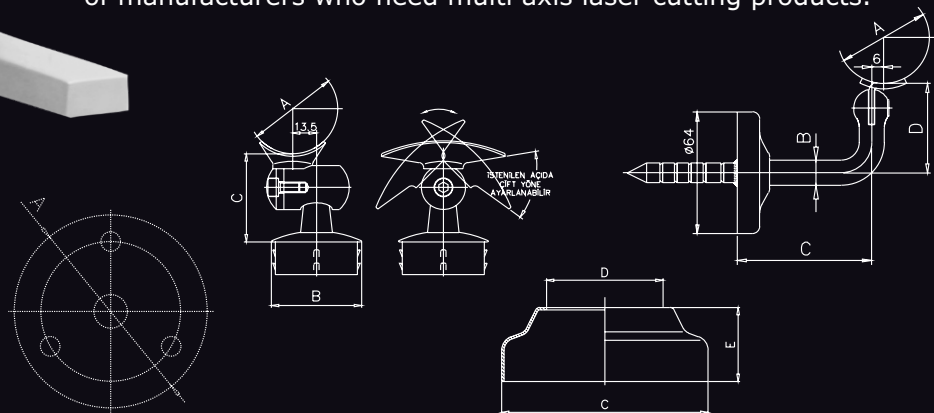

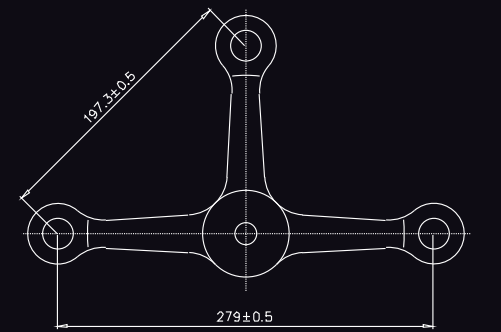

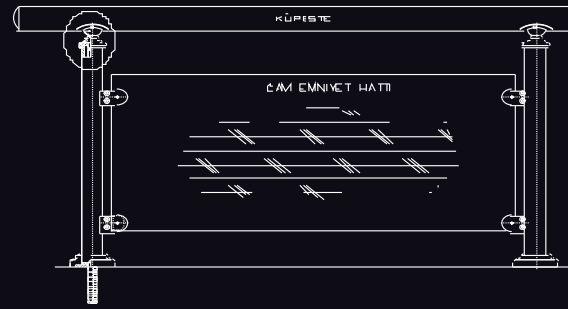

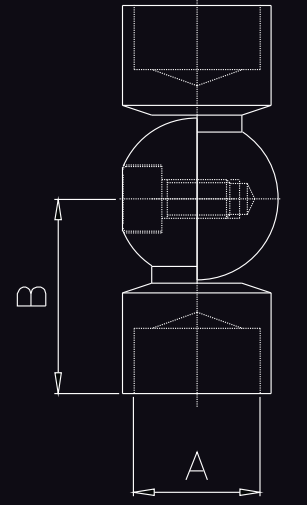

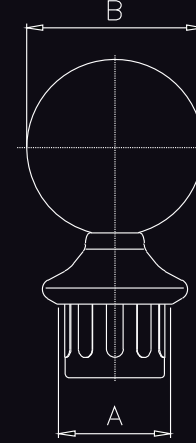

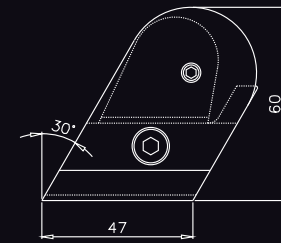

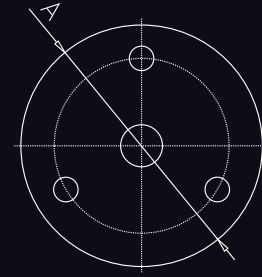

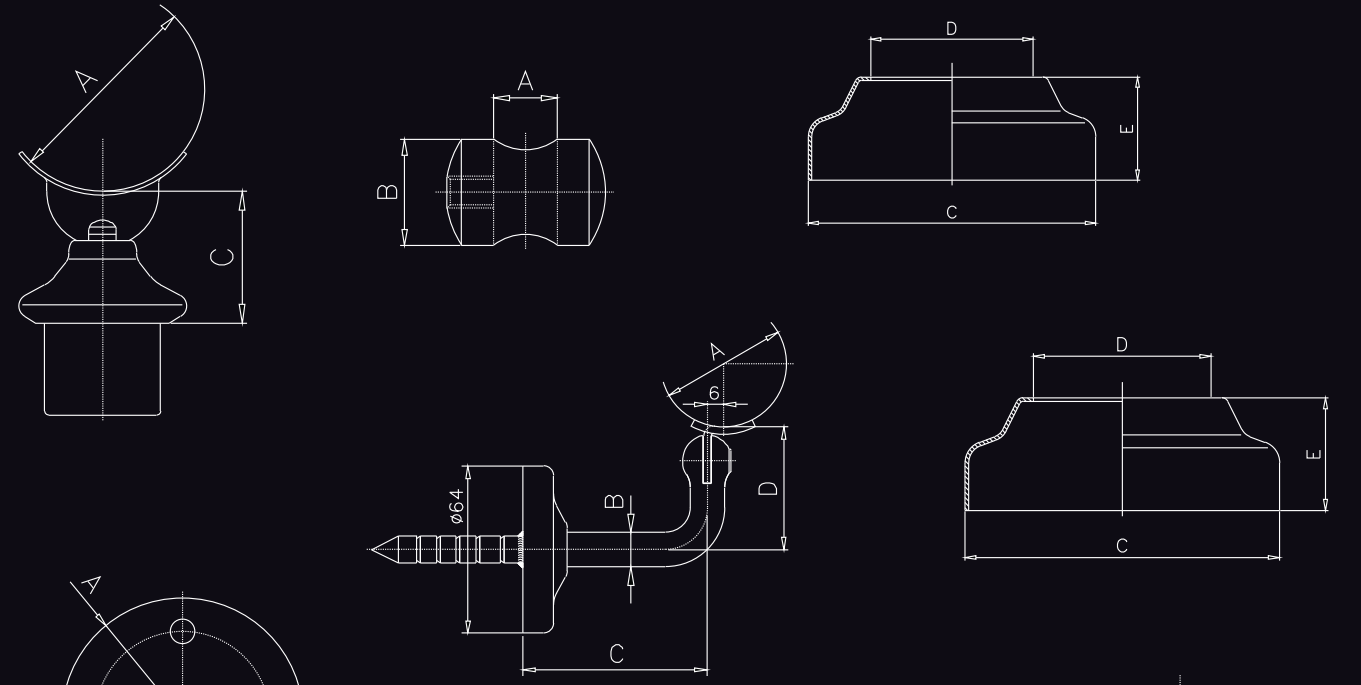

Yeni teknolojilere ve araştırma-geliştirme faaliyetlerine verdiği önemin bir sonucu olarak, ürünlerde kaliteyi ve çeşitliliği arttırmak amacıyla 5+1 eksen Lazer makinası yatırımını yapmıştır. Kendi üretiminin yanısıra çok eksenli lazer kesim ihtiyacı olan üreticilerin taleplerini, bilgi ve tecrübesi doğrultusunda karşılamaya hazırdır. Ülke kalkınmasında üretimin gücüne inanan kuruluşumuz, bu anlayışla çalışan üretim yapan ve hizmet veren tüm kuruluşlara başarılar diler.

ABOUT US

Argesan Kalıp San.Tic.Ltd.Şti. was established in 1990 to produce plastic injection and metal sheet mould productions. At the end of 1999 we stopped to produce these productions and started to manufacture **Stainless Steel Staircase Railing and Connection Accessories in Balustrades and Handrails.**

ARGESAN is a leading company and well placed in his sector both in domestic and foreign markets with the conception of high quality production, delivery on time and consecutively service and has more than 2500 kinds of product varieties which have been produced by his own moulds.

In the wake of being committed to new technologies and R&D activities ARGESAN made an investment of 5+1 Axis Laser Machine and is ready to meet the demands of manufacturers who need multi axis laser cutting products.
